That's definitely not David Bromberg.
bowed you a googly
and came up with this
<http://www.folk-festival.org/Marphoto/200-1972-Dylan-Phillips-Bromberg.gif>
but all I can tell you is that dylan is in the headband and white shirt.
my guess is that bromberg has his back to us.

Bromberg is on the far right (looking at the pic) -- exactly opposite Dylan,
a profile shot, pretty much all you can see is his glasses, and his nose.

Here's a link to a better one.

The three guys are (left to right) Dylan, Leon Redbone, Bromberg

I thought I'd seen a clear one somewhere (Rolling Stone or Crawdaddy,
in the original reports of the festival), but I can't turn it up.

Yes, that's even better. Thank you.

just been flicking thru some bob picture-books to see if i could find a
decent photo of the pair at mariposa.
there is one in bob dylan an illustrated history by michael
gross/robert alexander from 1978.
unfortunately, the picture has a policeman obscuring mr bromberg.

however, what it does contain, is a photographer's credit (b.i.c.
photography ltd. - bruce cole.) so all you gotta do now is contact mr
cole and ask if he still has the contact sheet.
